

H1N1 requirements
Public Health

According to the new JFCC SPACE/14 AF H1N1 Preventative Measures Policy (Nov. 9, 2009), all work centers should follow the procedures below.

1. Purchase and place tissue, hand disinfectant and disinfectant wipes in all conference rooms, waiting rooms, break rooms, government vehicles and offices.
2. Establish routine cleaning schedules to disinfect items used on a daily basis (i.e. door knobs, telephones, electronic device remote controls, electronic equipment knobs, keyboards, computer mouse, chair arms, flat surfaces, etc).
3. All personnel should have their seasonal (not H1N1) vaccine by Nov. 15, 2009. If you are a military beneficiary, please contact the clinic to get this accomplished.

The following NSN's are provided (with cost) for the unit to purchase the items mentioned in point 1 above:

Hand Sanitizer (12 oz) 8520-01-490-7365 (12 in each bx, \$52.14/bx) GSA Advantage

Facial Tissue 21400 (100 bx, single sheet, \$0.62/pg) PVM

Aseptic wipes disinfectant Q89072 (\$5.09/ea) PVM
