

STAY CONNECTED – GO VIRTUAL

Private Org Executives – Please consider all the tools and technology at your disposal to STAY CONNECTED. Reach out to your members (especially those isolated and those overworked) both to share information and encouragement. Consider continuing to hold your meetings to maintain normalcy – just meet online. Think about new and fun activities and professional development you can do as an org that don't require congregating. Maybe invite guest celebs to dial in and motivate and mentor with your teams. No Limits! Be creative – courageous - connected!

Our Airmen need to come together now more than ever. They need avenues and outlets. It's not time for your Private Organizations to shut down – it's time for you to surge!

Thank you for leading us all through!

Chief Simmons
